

SK KOSICE03: Courses – Faculty of Civil Engineering, TUKE	Semester	Study cycle	ECTS credits	Code of subject
Architectonical drawing	winter	bachelor	4	25000371
Building services I			5	2507401
Concrete and concrete bearing structures			5	2507771
Descriptive geometry			6	2500121
Elasticity I			4	2504031
Environmental engineering I			3	2506531
Environmental chemistry			5	2503831
Environmental impact assessment			4	2504891
Fire safety of buildings			5	2501611
Hydrology and meteorology			5	2506483
Charges and costs			5	2505951
Chemical technology basics			3	25000109
Chemistry			5	2503991
Landscape protection and revitalisation			3	25000052
Mathematics I			7	2500041
Metal structures and bridges			5	2506511
Preparation and realization of construction			5	2506441
Soil mechanics			5	25000443
Soil Mechanics			4	2503811
Static analysis of constructions			5	2507761
Steel and timber structures			5	2507801
Technologies of construction processes I			6	2506471
Timber structures and bridges			4	25000120
Transport engineering planning			5	25000048
Transport structures	5	25000050		
Water structures	5	2506501		
Architectural and indoor engineering	winter	master	5	2507891
Concrete construction realisation			5	2504911
Elasticity II			4	2507991
Energetic simulation and modelling			4	25000533
Management and marketing of the building industry			5	25000112
Metal bridges II			5	2506771
Numerical mathematics and mathematical statistics			5	2500431
Pedology and erosion control practices			6	2502111
Power engineering			5	25000107
Selected chapters of metal and timber structures I	4	2506871		

Technologies for reconstruction			6	2505961		
Water supply and sewerage			6	2503901		
Working environment			4	25000429		
Building economy	summer	bachelor	4	2505473		
Building services computer design			3	2506493		
Building services II			4	2507411		
Concrete and masonry bearing member			5	25000042		
Construction mechanics			4	2507851		
Foundation I			5	25000444		
Hydromechanics			4	2505431		
Landscape and urban planning			4	2505741		
Mathematics II			6	2500101		
Roads and motorways			4	2505641		
Special issues of physical chemistry			4	25000155		
Steel and timber bearing members			5	2505511		
Steel bearing members			6	2507491		
Technological project			4	2506623		
Technologies of construction processes II			7	25000371		
Theoretical mechanics			5	2500181		
Typology I			6	2504071		
Waste management			5	2504491		
Building materials durability			summer	master	3	25000387
Building Materials LCA					3	25000386
Building planning automatization	5	25000122				
Construction project management	5	2506711				
Environmental management	5	25000071				
Metal bridges I	5	2506071				
Quality in construction industry	5	2504831				
Railway structures II	4	25000440				
Sustainability assessment of buildings	5	25000470				
Sustainable construction	3	25000506
